PROXIMA SYSTEMS HUB

TECHNICAL DESCRIPTION

OVERVIEW

This set of six covers protects the lateral floor areas of Airbus EC145 and H145 helicopters, including wiring, and helps prevent foreign object debris (FOD) from entering the aircraft.

Made of rot-proof high-pressure laminate (HPL) resistant to oils and solvents, the covers feature non-slip strips to reduce the risk of slipping.

Locating pins allow the covers to be placed directly on the helicopter and help prevent them from moving during use.

KEY FEATURES

Set of 6 covers
floor-area protection

Wiring protection
and FOD prevention

Locating pins
simple, stable placement

Non-slip strips
reduced slipping risk

TECHNICAL SPECIFICATIONS

CONTENTS	Set of 6 covers
MATERIAL	High-pressure laminate (HPL)
PROPERTIES	Rot-proof; resistant to oils and solvents
POSITIONING	Locating pins
SAFETY	Non-slip strips
AIRCRAFT	Airbus EC145 / H145

APPLICATION

Temporary protection of lateral floor areas during helicopter maintenance operations.
