TECHNICAL DESCRIPTION

OVERVIEW

This stand is designed to store and protect cowlings removed during maintenance on EC145 and H145 helicopters. It accommodates front, engine, main gearbox (MGB) and rear cowlings.

The structure is made from aluminum profiles with high-pressure laminate (HPL) components. This material is rot-proof and washable with water.

Felt padding is fitted at selected contact areas to protect the cowlings when placed and stored on the stand.

KEY FEATURES

Multiple cowlings
front, engine, MGB, rear

Aluminum frame
extruded profiles

HPL laminate
rot-proof and washable

Contact areas
protected by felt padding
