PROXIMA SYSTEMS HUB

TECHNICAL DESCRIPTION

OVERVIEW

This FCU storage unit is intended for the storage and protection of five Flex Control Units (FCUs) during main rotor blade removal operations on an H145 helicopter.

The six compartments allow the FCUs to be stored in an organized manner during maintenance operations.

The mobile storage unit has an aluminum structure mounted on casters. Each compartment is fully lined with felt, while the top surface has a protective 10 mm felt layer.

KEY FEATURES

6 felt-lined compartments
for storage of 5 FCUs

Aluminum structure
mobile unit on casters

Protective compartments
fully felt-lined interiors

Protected top surface
10 mm felt layer

TECHNICAL CHARACTERISTICS

APPLICATION	FCU storage and protection
CAPACITY	6 compartments for storage of 5 FCUs
STRUCTURE	Aluminum
COMPARTMENTS	Interiors fully lined with felt
TOP SURFACE	10 mm protective felt layer
MOBILITY	Mobile storage unit on casters
AIRCRAFT	H145

APPLICATION
Temporary FCU protection during main rotor blade removal.
